

Simulator Training Systems

SYSTEM REQUIREMENTS

The following computer system requirements are applicable for Windows versions of SIMUTECH Simulation software:

- IBM compatible PC with a Pentium®, Core®, or equivalent processor
- Minimum amount of RAM (software has low memory usage)
- Windows XP, Vista, 7, 8, 8.1, and 10 (32-bit or 64-bit) operating system
- VGA/SVGA display, maximum 1024x768 resolution preferred
- Tablet or iPad (using Remote Desktop option)
- Hard disk drive, minimum available disk space as follows:
 - SIMUAIR*: 9MB *
 - SIMUPUMP*: 9MB *
 - SIMUREFR*: 9MB *
 - SIMUMKT*: 9MB *
 - SIMUGAS*: 8MB *
 - SIMUOIL*: 9MB *
 - SIMUHYDRO*: 8MB *
 - SIMUGEO*: 12MB *

* Note: First Installation of a Simutech application requires an additional 9MB for hardware key drivers.

Software is supplied with one USB hardware key (dongle) per computer or server. Each dongle will operate all Simutech applications.

NETWORK INSTALLATIONS:

Fully network-compatible with Novell and Windows XP, Vista, 7, 8, 8.1, 10, Server 2003, Server 2008, or Server 2012.

No software is required to be installed on client workstations.

For virtual servers, the supplied dongle can operate on any physical server or computer on the network, or with a USB network hub. If not available, contact Simutech Technical Support for a “workaround”.

Please contact Technical Support for additional questions at support@simutechsystems.com or 1-800-648-6209.
